Projects

College Website

15 Days

Project Description The College Website is a static web application designed to provide comprehensive information about a college. This project, built using HTML and CSS, features several key sections to enhance user experience and deliver relevant content to prospective students, faculty, and visitors.

Sections Included

Home The Home page provides an overview of the college, highlighting key information and updates. It serves as the main entry point for users visiting the site.

Blog The Blog section features articles, news, and updates related to the college. This section keeps students and visitors informed about recent events, achievements, and other important information.

Contact Us The Contact Us page includes a form for inquiries and contact information. It allows visitors to easily get in touch with the college administration for any questions or concerns.

About Us The About Us page details the college's history, mission, vision, and values. It provides visitors with a deep
